

Pompeii 1 Marina Gate

Enter Pompeii ruins through the Porta Marina entrance, the most impressive of the seven gates to the city. It originally connected the city to the nearby harbor and is the entrance to a bustling, but beautiful area. You will be fascinated by the sight of two dominant arched entryways, followed by a visit to the forum, the main square of the city, as you imagine the busy life of the citizens who came here every day to meet each other, gossip, run business or worship. The guided tour continues to many buildings of interest including the Temple of Jupiter, the basilica, the Machellum, the Sanctuary of the Lares Publici and more. Following the ruins, you will visit Donadio's Cameo Factory, a family-run business since 1885. This is an incredible opportunity to witness the ancient art of cameo engraving by some of the greatest master carvers and skilled artisans in the field as they create cameos the old-fashioned way working with great precision and patience before your eyes. There will be time for purchases.
