

Naples Underground PM

This tour starts later in the day, at 4 p.m., and goes into the night. Taking you 136 steps, approximately 40 meters, below the busy and lively streets of the historic center of Naples, you will find a different, unexplored world, isolated by time, but deeply connected with the world above. Napoli Sotteranea, Naples Underground, is an important link to the city's ancient past, over 2,400 years old. See the foundation of the Greek city of Neapolis, the remains of a Roman theater where Emperor Nero had his private dressing room when he performed in Naples, Roman aqueducts, and the bomb shelters of WWII.
