RULES

1. **SAFETY** comes first. Watch for pedestrians before making **ANY** and **ALL** throws. Please wait a few moments for pedestrians, animals, cars, etc.

2. **OUT of BOUNDS (OB)**

If your disc lands on or over any roads or fences:

- There is a one stroke penalty for landing OB
- Determine last location where your disc was “safe” prior to going OB
- You are permitted one meter of relief from any OB line
- If your disc is “touching” safe, it is considered safe and you are permitted relief

3. **MANDOS (OB)**

Your disc must fly on the proper side of any MANDO. If you miss the MANDO, your drop zone is adjacent to the MANDO and there is a one stroke penalty.
